

# Forma Treatment Services

*Glowing Skin Is Always In!*

*Preserve Your Previous Glow Without Forma Treatments Tailored To Your Skincare Needs.*

## What Is A Forma Facial?

We lose skin elasticity as we age. However, adopting a good skincare routine can do wonders and slow aging. This is where Forma skin tightening treatments come in! The stimulated collagen production from Forma facial treatment maintains the required skin elasticity, ensuring fresh, young, glowing skin.

Forma skin tightening facials use heat and radiofrequency to increase new collagen production in your skin. When you want younger-looking skin that glows beautifully, this is it.

The Forma facial lifts and contours your face to make it appear youthful, fresh and bright. This facial treatment brightens your natural skin tone and is suitable for all skin types. It is a painless, easy-to-go solution for sagging skin. It is called the non-surgical facelift for a reason.

*Achieve a younger-looking appearance.*

## Our Top-Tier Forma Facial Services

Studio Nude provides highly effective and lasting Forma facial treatments to turn aging, worn-out skin into a young, contoured, attractive visage.

We use the latest Forma System that offers four different technologies in one workstation: IPL, Bipolar RF, UltraSonic, and Diamond Peeling. These Forma facial devices use radiofrequency technology to stimulate deep tissue and shrink pores in target areas to achieve desired results.

Our clients love these facials for instantaneous results – we are talking a fresher, brighter appearance that adds to their confidence.

Get in touch today for unmatched skin rejuvenation services for a brighter, more confident you!

## How Is The Forma Treatment Done?

It all starts with high-powered radio frequency technology. This device comprises a wand that is heated at 109 degrees to iron the skin. Although this temperature seems hot, the session is painless.

The process starts by applying a cool conductive gel, as most clients have sensitive skin. Even if you have normal skin, this gel is used so that the Forma facial wand can be evenly pressed across the face to ensure thorough results. The rod is moved throughout the treatment area to tighten the skin. The wand is pressed more forcibly in critical treatment areas that show sagging skin and aging signs.

Moreover, the heat is reduced on and around the eyelid as these are delicate areas. It is essential to always head to a Forma facial expert who treats affected areas without damaging the skin.

The typical duration of a Forma treatment skin tightening session is thirty minutes, and its effects are apparent right away, lasting for weeks to come. Nevertheless, clients are encouraged to get the facial done six or seven times, once a week, for lasting, more prominent results.

## What Are The Benefits Of Forma Skin Tightening

Many people look for renovating tightening facials to maintain a good skincare routine. Forma facial is an excellent way to achieve flawless skin. Here are some of its many benefits:

- Stimulates new collagen production, which prevents fine lines and wrinkles
- Increases skin laxity
- Promotes skin tightening to achieve flawless and contoured facial features
- Slows down the degradation of collagen and skin cells, slowing the appearance of aging signs
- Gets rid of smile lines or nasolabial folds
- Eliminates crow's feet, making your visage look younger and more attractive
- Instant results
- Tightens loose skin on delicate areas like the upper eyelids and lower eyelids
- The radiofrequency technology in this facial treatment penetrates the inner layers of your skin to give a non-invasive facelift
- Essentially painless, making it fit for individuals with low pain endurance levels

## **Frequently Asked Questions**

### **Does the Forma facial have any side effects?**

The potential side effects of a Forma treatment include slight redness, swelling, and bruising due to a warming sensation. However, these effects subside in a few days. Using a cool towel can speed up the recovery process.

### **Is the Forma treatment suitable for sensitive skin?**

Yes, the Forma facial suits all skin types and ages. However, it's best to do a patch test before the session.

### **How long does Forma skin tightening last?**

The effects of Forma skin tightening treatments generally last for one to two years, depending on how well you take care of yourself afterward. We suggest getting maintenance Forma facials as recommended by your aesthetician. Additionally, if you get this facial to slow aging and improve skin elasticity, always use sunscreens and topical retinoids afterward, and avoid prolonged exposure to the sun.
